RESEARCH INTERESTS	Responsible Artificial Intelligence/Machine Learning (RAI), Algorithmic Fairness, Algorithmic Recourse, User Agency, Representational Bias/Harms, Sociotechnical Research
SELECTED EXPERIENCE	McCoy Family Center for Ethics in Society and Stanford Institute for Human-Centered Artificial Intelligence (HAI) at Stanford UniversityJUN 2024 – SEP 2024 <i>Embedded Ethics Postdoctoral Fellow working with James Landay and Leif Wenar</i> - Design and teach ethics modules embedded in core CS undergraduate courses, equipping students to identify and address the ethical implications of their technical design decisions - Mentor undergraduate and PhD students on research projects spanning representational bias, grassroots AI organizing, and sensing systems - Design privacy-preserving, multimodal sensing systems and interfaces for health, wellness, and aging-in-place, in collaboration with the Ambient Intelligence Lab The Ethics Institute at Northeastern UniversityJUN 2024 – SEP 2024 <i>Summer Research Intern with Sina Fazelpour and Maria De-Arteaga</i> - Investigated how representational harms manifest in generative AI outputs, developing a sociotechnical framing for their evaluation - Authored a paper introducing a conceptual framework for articulating and evaluating the normative claims underlying critiques of generative AI representations Salesforce IncJAN 2024 – APR 2024 <i>Responsible AI Consultant</i> - Designed experiments, measurement strategies, and evaluation frameworks to assess LLM feasibility for internal operational automated evaluation Google DeepMindJUN 2022 – OCT 2022 <i>Research Intern with the Ethics Research Team with William Isaac</i> - Led multiple research projects investigating normative assumptions embedded in fairness problem formulations and their deployment feasibility - Built an end-to-end internal application enabling dynamic, individually personalized moderation filtering through interaction with an LLM - Independently designed and ran a user study evaluating a novel recourse mechanism for generative language models that enables language reclamation Benshi.aiMAR 2022 – JUN 2022 <i>Data Science and ML Science Researcher</i> - Researched, prototyped, and evaluated a digital health AI prediction platform for assessing global healthcare inequities - Led causal inference and experimental design work powering personalized predictions and treatment assessments for improving health behaviors
EDUCATION	University of California San Diego2019 – 2025 Ph.D. in Computer Science, Advisors: Margaret Roberts, David Danks Dissertation Title: “User Agency Across the Machine Learning Pipeline” University of California San Diego2019 – 2023 M.S. in Computer Science Sigma Xi Wellesley College2015 – 2019 B.A. in Computer Science Minors: Mathematics, Statistics (unofficial) Magna Cum Laude, Phi Beta Kappa

LEADERSHIP & SERVICE	PRESIDENT OF GRADUATE WOMEN IN COMPUTING AT UCSD (GradWIC) - Acted as the point of contact for industries, organizations, companies, and UCSD - Planned budget and engagement strategy for upcoming year for goals and measurements of success - Increased student membership to 500+ students and number of events hosted by 3x - Organized and managed conference scholarships for GHC, Tapia, and CRA-WP Grad Cohort - Spearheaded GradWIC x WIC x DEI Graduate School Application Workshop Series (2020-2023, 4-7 workshops each year) - Additional roles: Treasurer (2021-2023), Publicity Chair (2020-2023)	2020 – 2023
	COMPUTER SCIENCE PhD STUDENT DEPARTMENT REPRESENTATIVE FOR THE GRADUATE AND PROFESSIONAL STUDENT ASSOCIATION - Attended Bi-Weekly Council Meetings and helped steward financial, community development plans, supplemental graduate support (e.g., food pantry, homelessness), and leadership decisions	2021 – 2022
	FOUNDER AND CHAIR OF WELLESLEY ACM-W STUDENT CHAPTER - Founded the organization, recruiting sufficient members and faculty support - Hosted regular technical interview preparatory workshops	2019 – 2020
	MENTORSHIP & ADVISING	
	Stanford University	
	- Sunny Sun (Undergraduate)	2026 –
	- Zhihanna Liu (Undergraduate)	2026 –
	- Louie Ortiz (Postbac)	2025 – 2026
	- Andrea Green (PhD Student, CEE)	2025 –
	University of California San Diego	
	- Nandhini Swaminathan (PhD Student, CSE)	2025 –
	- Aaron Broukhim (PhD Student, CSE)	2023 – 2025
	- Kyongyeon Lee (GradPal)	2020 – 2021
	- Langley Barth (GradPal)	2020 – 2021
	- Hena Ahmed (GradWIC Mentorship Program)	2023 – 2024
	- Alisha Ukani (GradWIC Mentorship Program)	2020 – 2021
	- Feng Hou (GradWIC Mentorship Program)	2020 – 2021
	- Erin Griggs (Jacobs Undergraduate Mentoring Program)	2020 – 2021
	- Ava Real (Jacobs Undergraduate Mentoring Program)	2020 – 2021
	- Dadian Zhu (Jacobs Undergraduate Mentoring Program)	2020 – 2021
